The purpose of this video is to provide general information and education about the care of a critically ill child. The information contained in this video is produced by faculty and staff affiliated with OPENPediatrics™ and is meant to be used as an educational resource for physicians, nurses and other healthcare providers. It is in no way a substitute for the independent decision making and judgment by a qualified health care professional. The information contained in this video should not be used to make a diagnosis or to overrule the advice of a qualified healthcare provider, nor should it be used to provide advice for emergency medical treatment.
