

Supplemental Digital Figure 1A

Correlation between number of years since publication and the number of citations of the top-cited articles in medical education published in medical education journals (List A). These 56 articles with citation counts ranking in the top 50 were identified via a search of the 13 medical education journals in the “Education, Scientific Disciplines” category of the Web of Knowledge (1900-2014), conducted from March 1-12, 2014. For the articles in List A, see Appendix 1.

Supplemental Digital Figure 1 B

Correlation between number of years since publication and the number of citations of the top-cited articles in medical education published across all journals listed in the Web of Knowledge (List B). These 56 articles with citation counts ranking in the top 50 were identified by keyword search of the Web of Knowledge (1900-2014), conducted from March 1-12, 2014. For the articles in List B; see Appendix 2. For keywords used in the search, see Method section.
