

Supplemental Digital Content 2. Median and Interquartile Ranges for Nonnormally Distributed Data in Table 2 (see article).

	Low	Moderate	High
Length of Stay and Postoperative Opioid Consumption			
Duration of postoperative admission (days)	3 [1]	3 [0]	3 [1]
PACU opioid consumption (OMEs)	7.5 [30]	13.2 [34.2]	29 [54]
Total postoperative opioid consumption (OMEs)	150 [114]	177 [180]	246 [201]

The present table presents the median [interquartile range] for skewed data in table 2 of the article. OME = oral morphine equivalents; PACU = postanesthesia care unit.
