

Figure, Supplemental digital content 6.

Distribution of 4,211 obstructive sleep apnea (OSA) patient surgeries and 16,277 non-OSA matched control surgeries by calendar year, as a percentage of total OSA or control surgeries. White, light grey, dark grey and black correspond to diagnosed OSA, diagnosed OSA controls, undiagnosed OSA controls and undiagnosed OSA, respectively.¹

ⁱThe clinical database recruited patients from 1990 to 2006 so no undiagnosed OSA patient surgeries occurred after 2006. Data from 1992 are an aggregate of 1990 through 1992 for diagnosed OSA and diagnosed OSA controls
