

Supplemental Figure 3: Daily home opioid use after hospital discharge. Opioid use was quantified for 30d postoperatively. (A) Number of opioid pills used (mean  $\pm$  SD). (B) Opioid use in mg IV morphine equivalents (mean  $\pm$  SD). (C) Number of opioid pills used (median and 25<sup>th</sup> and 75% quartiles). (D) Opioid use in mg IV morphine equivalents (median and 25<sup>th</sup> and 75% quartiles). Median pill and mg IV morphine equivalents use were zero after day 3.
