

Appendix 1. MeSH terms

- Adenocarcinoma/epidemiology
- Adenocarcinoma/pathology
- Adenocarcinoma/surgery
- Adolescent
- Adult
- Carcinoma in Situ/epidemiology
- Carcinoma in Situ/pathology
- Carcinoma in Situ/surgery
- Cervical adenocarcinoma/lymph nodes
- Cervical adenocarcinoma/hysterectomy
- Cervical adenocarcinoma/radical hysterectomy
- Cervical cancer/lymphovascular space invasion
- Cervical intraepithelial neoplasia/pathology
- Cervical intraepithelial neoplasia/surgery
- Cohort Studies
- Conization/methods
- Electrosurgery/methods
- Female
- Humans
- Hysterectomy
- Middle Aged
- Neoplasm Recurrence, Local/epidemiology*
- Neoplasm Recurrence, Local/pathology
- Neoplasm Recurrence, Local/surgery
- Neoplasm, Residual
- Prognosis
- Retrospective Studies
- Risk Factors
- Treatment Outcome
- Uterine Cervical Neoplasms/epidemiology*
- Uterine Cervical Neoplasms/pathology
- Uterine Cervical Neoplasms/surgery
- Young Adult

Teoh D, Musa F, Salani R, Huh W, Jimenez E. Diagnosis and management of adenocarcinoma in situ: a Society of Gynecologic Oncology evidence-based review and recommendations. *Obstet Gynecol* 2020;135.
