Supplemental Figure 1. Representative renal parenchyme in untreated indole-3-carbinol (I3C)-induced (upper panel) and noninduced (lower panel) Cyp1a1-Ren-2 transgenic rats.
Supplemental Figure 2. Representative renal parenchyme in c-AUCB-treated indole-3-carbinol (I3C)-induced (upper panel) and noninduced (lower panel) Cyp1a1-Ren-2 transgenic rats.
Supplemental Figure 3. Representative renal parenchyma in L-NAME-treated indole-3-carbinol (I3C)-induced (upper panel) and noninduced (lower panel) Cyp1a1-Ren-2 transgenic rats.
**Supplemental Figure 4.** Representative renal parenchyme in indole-3-carbinol (I3C)-induced (upper panel) and noninduced (lower panel) Cyp1a1-Ren-2 transgenic rats treated with combination of c-AUCB and L-NAME.
**Supplemental Figure 5.** Representative renal parenchyme in indole-3-carbinol (I3C)-induced (upper panel) and noninduced (lower panel) Cyp1a1-Ren-2 transgenic rats treated with combination of L-NAME and RAS blockade.
