

**Supplemental Digital Content 2: Anti-infective agents according to the Anatomical Therapeutical Chemical system (ATC) from the World Health Organization (WHO).**

<b>Group of anti-infective agent</b>	<b>Subgroups</b>
<b>Antibacterials for systemic use (including antiseptics)</b>	<p>Anti-infectives:            J01A <b>TETRACYCLINES</b>            J01B <b>AMPHENICOLS</b>            J01C <b>BETA-LACTAM ANTIBACTERIALS, PENICILLINS</b>            J01D <b>OTHER BETA-LACTAM ANTIBACTERIALS</b>            J01E <b>SULFONAMIDES AND TRIMETHOPRIM</b>            J01F <b>MACROLIDES, LINCOSAMIDES AND STREPTOGRAMINS</b>            J01G <b>AMINOGLYCOSIDE ANTIBACTERIALS</b>            J01M <b>QUINOLONE ANTIBACTERIALS</b>            J01R <b>COMBINATIONS OF ANTIBACTERIALS</b>            J01X <b>OTHER ANTIBACTERIALS</b>            - Mycobacterium:            J04A <b>DRUGS FOR TREATMENT OF TUBERCULOSIS</b>            J04B <b>DRUGS FOR TREATMENT OF LEPROSY</b></p> <p>Alimentary tract:            A01AB <b>Antiinfectives and antiseptics for local oral treatment</b>            A02BD <b>Combinations for eradication of Helicobacter pylori</b>            A07A <b>INTESTINAL ANTIINFECTIVES</b></p> <p>Blood and blood-forming organs:            B05CA <b>Antiinfectives</b></p> <p>Cardiovascular system:            C05AB <b>Antibiotics</b></p> <p>Dermatologicals:            D06A <b>ANTIBIOTICS FOR TOPICAL USE</b>            D07C <b>CORTICOSTEROIDS, COMBINATIONS WITH ANTIBIOTICS</b>            D07B <b>CORTICOSTEROIDS, COMBINATIONS WITH ANTISEPTICS</b>            D08A <b>ANTISEPTICS AND DISINFECTANTS</b>            D10AF <b>Antiinfectives for treatment of acne</b></p> <p>Gynaecological:            G01 <b>GYNECOLOGICAL ANTIINFECTIVES AND ANTISEPTICS</b></p> <p>Respiratory system:            R02AA <b>Antiseptics</b>            R02AB <b>Antibiotics</b></p> <p>Sensory organs:            - ophthalmological            S01A <b>ANTIINFECTIVES</b>            S01C <b>ANTIINFLAMMATORY AGENTS AND ANTIINFECTIVES IN COMBINATION</b>            - otological            S02A <b>ANTIINFECTIVES</b>            S02C <b>CORTICOSTEROIDS AND ANTIINFECTIVES IN COMBINATION</b>            - ophthalmological and otological            S03A <b>ANTIINFECTIVES</b>            S03C <b>CORTICOSTEROIDS AND ANTIINFECTIVES IN COMBINATION</b></p>
<b>Antivirals for systemic use</b>	<p>Antiinfectives:            J05A <b>DIRECT ACTING ANTIVIRALS</b>            J05AA <b>Thiosemicarbazones</b>            J05AB <b>Nucleosides and nucleotides excl. reverse transcriptase inhibitors</b>            J05AC <b>Cyclic amines</b>            J05AD <b>Phosphonic acid derivatives</b>            J05AE <b>Protease inhibitors</b>            J05AF <b>Nucleoside and nucleotide reverse transcriptase inhibitors</b>            J05AG <b>Non-nucleoside reverse transcriptase inhibitors</b>            J05AH <b>Neuraminidase inhibitors</b>            J05AR <b>Antivirals for treatment of HIV infections, combinations</b>            J05AX <b>Other antivirals</b></p>

---

Dermatological:  
D06BB **Antivirals**

Sensory organs:  
S01AD **Antivirals**

**Antimycotics for systemic use**

J02AA **Antibiotics**  
J02AB **Imidazole derivatives**  
J02AC **Triazole derivatives**  
J02AX **other antimyotics for systemic use**

Dermatological:  
D01 **Antifungals for dermatological use**

**Antiparasitic**

P **ANTIPARASITIC PRODUCTS, INSECTICIDES AND REPELLENTS**
