The above table presents relationships of the **ASAM Quality Improvement Council** during the past 12 months with industry and other entities that were determined to be relevant to this document. These relationships are current as of the completion of this document and may not necessarily reflect relationships at the time of this document's publication. A relationship or arrangement is considered to be *significant* if the individual receives compensation which includes cash, shares, and/or anything else of value including direct ownership of shares, stock, stock options or other interest of 5% more of an entity or valued at \$10,000 or more (excluding mutual funds), whichever is greater. A relationship or arrangement is considered to be *modest* if it is less than significant under the preceding definition. A relationship or arrangement is considered to be *unpaid* if the individual does not receive monetary reimbursement. **Indicates significant relationship. *Indicates modest relationship.
