

Heterotopic Ossification Grading

	Grade 0	Grade 1	Grade 2	Grade 3
	None	<1cm and <5 nodules	<1 cm and 5-10 nodules	≥1 cm or >10 nodules
BMP	6	0	0	0
BMP+IB	2	2	1	1

Fig. E-1

Heterotopic ossification grading system used to grade the amount of heterotopic ossification (arrows) observed on the radiographs of hip capsules. Of the twelve hips treated with either BMP or BMP+IB, two had Grade-1; one, Grade-2; and one, Grade-3 heterotopic ossification. Scale bar = 1 cm. BMP = bone morphogenetic protein, and IB = ibandronate.
