

## Appendix

**Musculoskeletal:**  
 {upper extremity:28673} upper extremity:

**Skin Examination:**  
 {Tenting not present/present:26294}  
 {Puckering not present/present:26295}  
 {Ecchymoses not present/present:26296}  
 {Superficial abrasion not present/present:26297::"Superficial abrasion is not present"}

**Vascular Examination:**  
 Hand is {pink/pale/cyanotic:26298::"pink"}  
 Capillary Refill Time is {1/2/3/4/5/6:26299} Seconds  
 Temperature is {warm/cool:26300::"warm"}  
 Radial pulse is {palpable/present/absent:26301}

**Compartments:**  
 Flexor compartment is: {soft/firm:26305::"soft"}  
 Extensor Compartment is: {soft/firm:26310::"soft"}  
 Swelling is {mild/moderate/severe/difficult to assess:26308}  
 Forearm pain with passive finger extension is {absent/present/difficult to assess:26309::"absent"}

**Sensory Examination:**  
 Radial Nerve: Sensation to light touch in first dorsal webspace is {intact/diminished/absent:26311::"intact"}  
 Median Nerve: Sensation to light touch is {intact/diminished/absent:26312::"intact"} on palmar aspect of index finger.  
 Ulnar Nerve: Sensation to light touch is {intact/diminished/absent:26313::"intact"} on palmar aspect of small finger.

**Motor Examination:**  
 AIN: Thumb IP Flexion is {active/diminished/absent/difficult to assess:26314::"active"}  
 High Median: Index finger IP Flexion is {active/diminished/absent/difficult to assess:26315::"active"}  
 Radial: MP Extension/Thumb Extension is {active/diminished/absent/difficult to assess:26316::"active"}  
 Ulnar: MCP Flexion/IP Extension/ finger abduction is {active/diminished/absent/difficult to assess:26317::"active"}  
 {active  
 diminished  
 absent  
 difficult to assess

Fig. E-1

Sample note template. The template includes drop-down options in each predetermined examination category but also allows for free text to be entered by the provider as needed. The highlighted text shows the pull-down menu options as well as the *smart text list number*, a unique number necessary for data extraction. As demonstrated in the “Motor Examination” portion of the template, the pull-down menus are displayed in a user-friendly format. Copies of note templates are available from the authors upon request.
