

Orthopaedic Surgeon Questionnaire

Thank you for your interest in this study entitled ‘*Prevalence of Gender-Based and Sexual Harassment in the Field of Orthopaedic Surgery*’. We greatly value your willingness to review the questions below. Your responses will help orthopaedic researchers, educators and societies better understand the issues surrounding gender-based and sexual harassment within the specialty of orthopaedic surgery.

This questionnaire should take you approximately 10-15 minutes to complete. Completion of the enclosed questionnaire is voluntary. Return of a completed questionnaire implies your consent to participate. A master list of society members will be maintained during the data collection phase for the purposes of tracking questionnaire completion. This list will not be linked to questionnaire responses – your questionnaire responses will remain completely anonymous, even to the study team.

Some of the questions may be uncomfortable for you to answer, or you may be irritated if the questions have no bearing on your life. However, we ask that you try your best in answering all questions. Your participation is important to us and for those whom would benefit from this research.

Due to the sensitive nature of this study, we ask that you find a private location to complete this questionnaire.
