CREATIVE COMMONS LICENSE

Please select the Creative Commons License pursuant to which the Publisher will license the Work (a description of each license, and the license terms, can be reviewed at <http://www.creativecommons.org/licenses>):

Select one from the list below:

Attribution CC BY. Creative Commons describes this license as follows: “This license lets others distribute, remix, tweak, and build upon your work, even commercially, as long as they credit you for the original creation. This is the most accommodating of licenses offered. Recommended for maximum dissemination and use of licensed materials.”

***Please note that the Attribution CC BY license has an Article Processing Fee of \$1950**

Attribution-NoDerivs CC BY-ND. Creative Commons describes this license as follows: “This license allows for redistribution, commercial and non-commercial, as long as it is passed along unchanged and in whole, with credit to you.”

Attribution-ShareAlike CC BY-SA. Creative Commons describes this license as follows: “This license lets others remix, tweak, and build upon your work even for commercial purposes, as long as they credit you and license their new creations under the identical terms. This license is often compared to ‘copyleft’ free and open source software licenses. All new works based on yours will carry the same license, so any derivatives will also allow commercial use. This is the license used by Wikipedia, and is recommended for materials that would benefit from incorporating content from Wikipedia and similarly licensed projects.”

Attribution-NonCommercial CC BY-NC. Creative Commons describes this license as follows: “This license lets others remix, tweak, and build upon your work non-commercially, and although their new works must also acknowledge you and be non-commercial, they don’t have to license their derivative works on the same terms.”

Attribution-NonCommercial-ShareAlike CC BY-NC-SA. Creative Commons describes this license as follows: “This license lets others remix, tweak, and build upon your work non-commercially, as long as they credit you and license their new creations under the identical terms.”

Attribution-NonCommercial-NoDerivs CC BY-NC-ND. Creative Commons describes this license as follows: “This license is the most restrictive of our six main licenses, only allowing others to download your works and share them with others as long as they credit you, but they can’t change them in any way or use them commercially.”

US Government Employee. If the Work or a portion of it has been created in the course of any author's employment by the United States Government, check the "Government" box at the end of this form. A work prepared by a government employee as part of his or her official duties is called a "work of the U.S. Government" and is not subject to copyright. If it is not prepared as part of the employee's official duties, it may be subject to copyright.

If “Government” is chosen, please do not choose a Copyright Clearance License. The work will be published with “Written work prepared by employees of the Federal Government as part of their official duties is, under the U.S. Copyright Act, a “work of the United States Government” for which copyright protection under Title 17 of the United States Code is not available. As such, copyright does not extend to the contributions of employees of the Federal Government.”

Study Protocol. Select this option if you are submitting a Study Protocol to Medicine®. You do not need to choose a Creative Commons license if this option is chosen, the CCBY option will be applied to the manuscript at publication.
