

Supplementary Digital Content 6, Table: Average US Commercial Pricing of Biomarkers

| Biomarker | Price |
|--|--|
| CHr, pg | \$34.89, \$59.60, \$42 (as part of reticulocyte count) |
| Hb, g/dL | Individual: \$27.94, as part of CBC: \$20.25, \$24.00, \$42.62 |
| RDW, % | as above |
| MCV, fL/cell | as above |
| Ferritin, µg/L | \$27, \$34.78, \$38.68 |
| sTfR, mg/L | \$119 |
| CRP, mg/L | \$33.45, \$43.00 |
| <p>Note: Unable to price AGP, BIS and hepcidin as these tests are not commercially available in the US. Abbreviations: Reticulocyte Hemoglobin Content=CHr; Hemoglobin=Hb; RDW (Red blood Cell Distribution Width); mean cell volume- MCV; soluble transferrin receptor=sTfR; C-Reactive Protein=CRP; alpha1-acid glycoprotein=AGP; BIS= Body Iron Stores; CBC: Complete Blood Count which includes hemoglobin, hematocrit, Red Blood Cell count, Red Cell Indices (RDW, MCV), White Blood Count and Platelets.
