

Supplemental Table 1. WOUND BED PREPARATION 2021 EXPERT SURVEY

Wound Bed Preparation 2021 Expert Survey

Wound Bed Preparation is a paradigm for comprehensive assessment, treatment and care of patients with wounds.

We would like:

1. Your level of agreement or disagreement with the inclusion of each of these statements within the Wound Bed Preparation Paradigm, based on your clinical experience, understanding of the literature and experiences with patient preference.
2. Some demographic data on you, the expert
3. Any other feedback you would like to share for inclusion in the latest version of Wound Bed Preparation. Note there is an open comments section at the end of the survey.

Top of Form

* 1. Please include your first and last name:

* 2. **Treatment of the cause:**

- A. Identify and treat the cause as specifically as possible (DFU, Venous, PI, other)
 - B. Perform a vascular assessment
 - C. Review cofactors/comorbidities that may delay or inhibit healing (systemic disease, previous surgery, nutrition, medications)
- Strongly Agree
 - Somewhat Agree
 - Somewhat Disagree
 - Strongly Disagree
