1. Proceedings of the 25th International Stroke Genetics Consortium Workshop

Jemma C. Hopewell, PhD¹, Matthew Traylor, PhD², Hugh S. Markus, F Med Sci²

1. CTSU, Nuffield Department of Population Health, University of Oxford, UK
2. Department of Clinical Neurosciences, University of Cambridge, UK

Email: hsm32@cam.ac.uk

We encourage you to visit our website (http://www.strokegenetics.org) for further details.

Acknowledgements:

Steering Committee- Jin-Moo Lee, Chair and Israel Fernandez-Cadenas, Co-Chair; Members: Stephanie Debette (Immediate Past-Chair), Ann-Katrin Giese (Junior member); Rufus Akinyemi, Jemma Hopewell, Steven Kittner, Jane Maquire, Paul Nyquist, Natalia Rost. Working Group Leaders- Acute Endophenotypes WG: Israel Fernandez-Cadenas, Jin-Moo Lee; Cognitive WG: Matt Pase, Brad Worrall; Imaging WG: Natalia Rost; Intracranial Aneurysm WG: Ynte Ruigrok, Philippe Bijlenga; Intracerebral Hemorrhage WG: Guido Falcone, Jonathan Rosand, Dan Woo; META/MEGASTROKE WG: Stephanie Debette, Martin Dichgans, Jemma Hopewell; Multiomics WG: Carlos Cruchaga, Myriam Fornage; Neuro-CHARGE WG: Myriam Fornage, Sudha Seshadri; SiGN WG: Steven Kittner, Brackie Mitchel; Translational Science WG: Chris Anderson, Tom Van Agtmael. Administrative support: Bailey Montgomery, Anna Bates.

2. Periventricular and subcortical white matter hyperintensities are associated with different vascular risk factors.

MD Schirmer, PhD¹,²,³, MJ Nardin, MD¹, F Dubost, MSc⁴; on behalf of the MRI-GENIE consortium.

1. Harvard Medical School, Boston, USA.
2. Massachusetts Institute of Technology, Boston, USA.
3. German Centre for Neurodegenerative Diseases (DZNE), Germany.
4. University Medical Center Rotterdam, The Netherlands.

Disclosure and Study Support: EU Horizon 2020 programme (MSC No 753896; MDS) and the MRI-GENIE study (NIH-NINDS R01NS086905).

Contact Email: MSCHIRMER1@mgh.harvard.edu

3. Introduction to Helsinki ischemic and hemorrhagic stroke GWAS cohorts.

Liisa Tomppo, MD, PhD¹, Hanne Sallinen, MD¹, Priit Palta, PhD², Javier Nuñez Fontarnau, PhD², Aki S. Havulinna DSc (Tech.)²,³, Samuli Ripatti, PhD², Veikko Salomaa MD, PhD³, Turgut Tatlisumak, MD, PhD⁴,⁵, Daniel Strbian MD PhD¹

1. Department of Neurology, Helsinki University Hospital, Helsinki, Finland.
2. Institute for Molecular Medicine Finland (FIMM/HiLIFE), University of Helsinki, Helsinki, Finland.
4. Department of Clinical Neurosciences, Institute of Neurosciences and Physiology, Sahlgrenska Academy at University of Gothenburg, Gothenburg, Sweden.
5. Department of Neurology, Sahlgrenska University Hospital, Gothenburg, Sweden.

Disclosure and Study Support: No conflicts of interest. The study is supported by Finnish Governmental Research Funds.
