

**Figure e-4.** Percentage of JCV-/BKV-cross-reactive antibodies among JCV-specific and BKV-specific antibodies in serum and CSF of two donors showing intrathecal JCV- and BKV-specific antibody production. **(A)** The percentage of JCV-/BKV-cross-reactive antibodies among JCV-specific antibodies in serum and CSF of two donors with intrathecal JCV- and BKV-specific antibody production is shown. **(B)** The percentage of JCV-/BKV-cross-reactive antibodies among BKV-specific antibodies in serum and CSF of two donors with intrathecal JCV- and BKV-specific antibody production is shown.
