

Figure, Supplemental Digital Content 3. Trends in NSQIP intraoperative time from 2005-2021

a) CPT 19316: Mastopexy

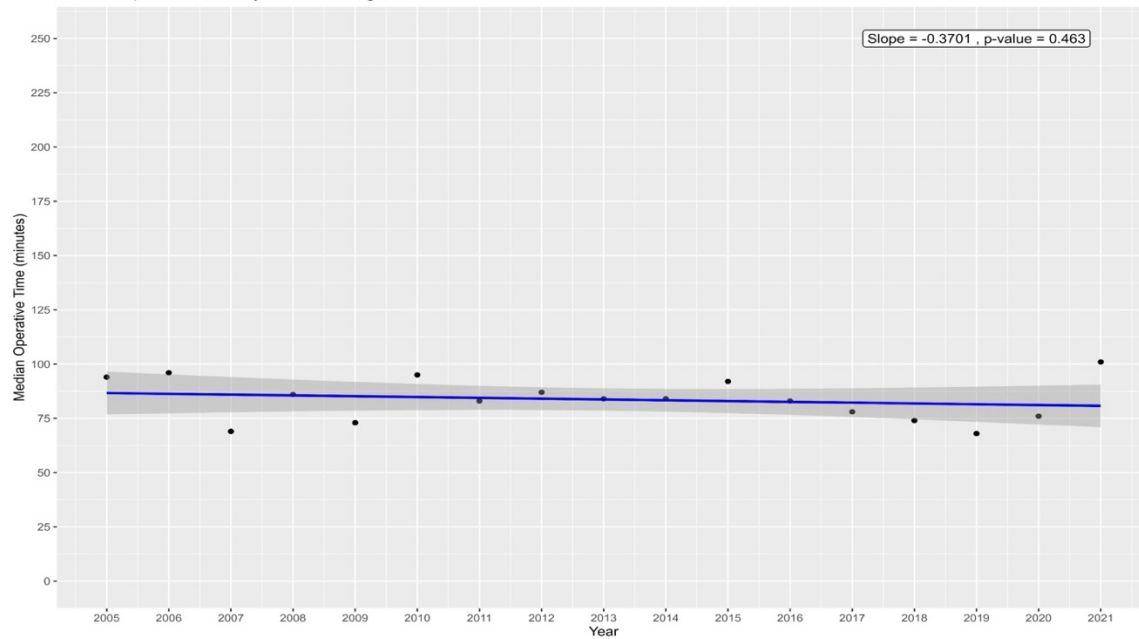

b) CPT 19318: Breast reduction

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Unilateral, 19318

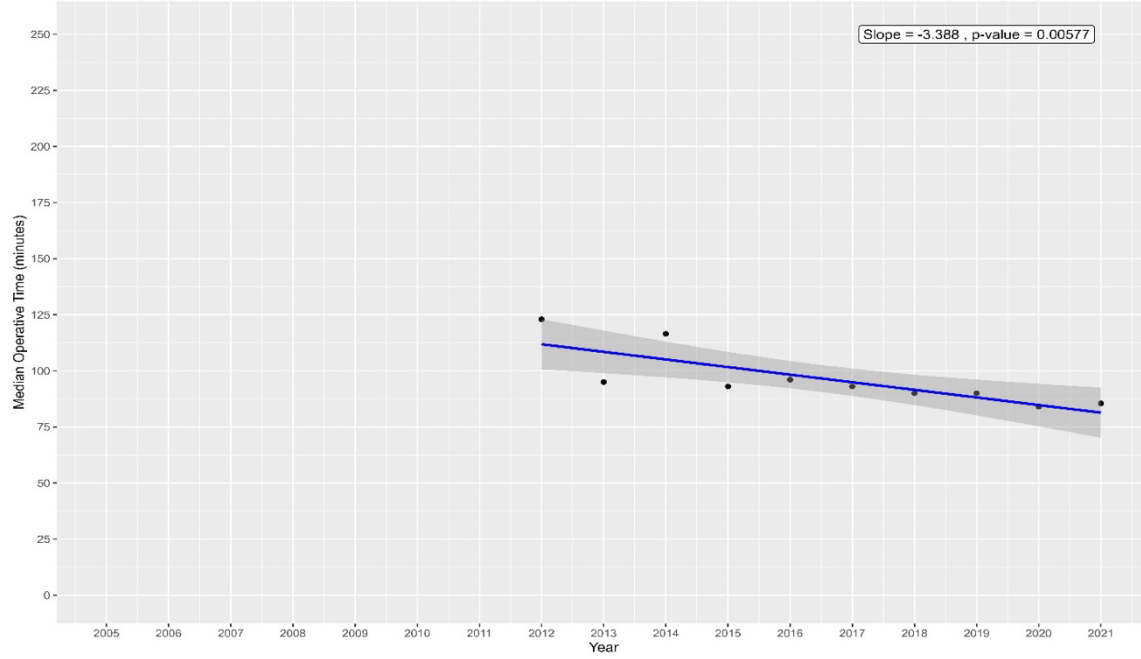

c) CPT 19340: Insertion of breast implant on the same day of mastectomy

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Immediate, Unilateral, without ADM 19340

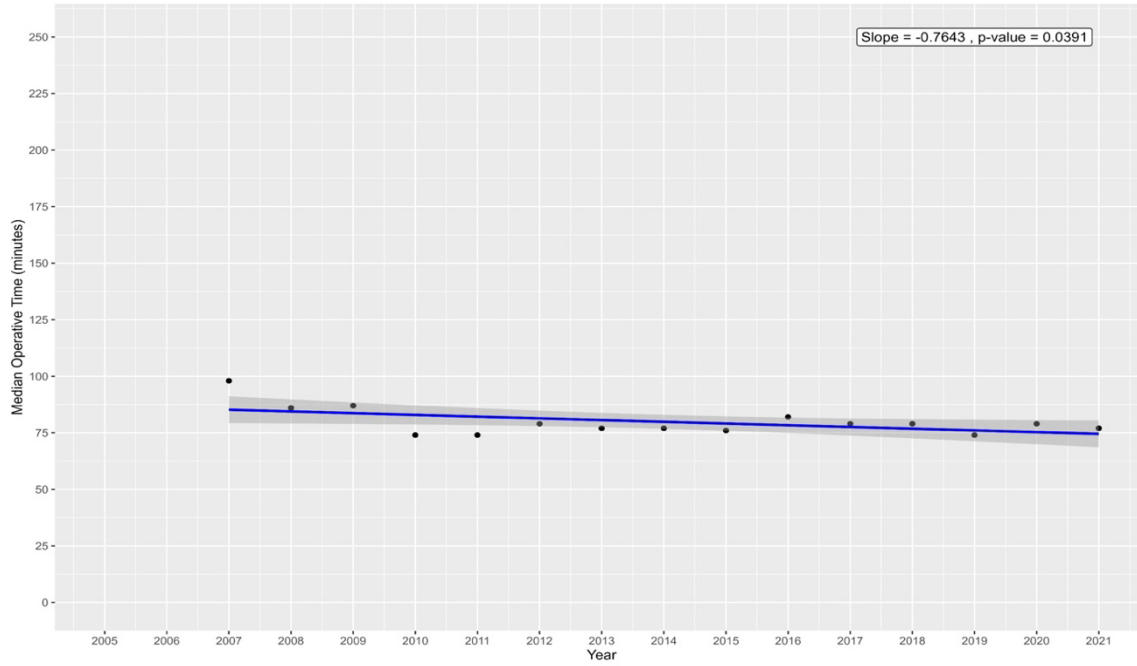

d) CPT 19340+15777: Insertion of breast implant on the same day of mastectomy, with acellular dermal matrix

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Immediate, Unilateral, with ADM 19340

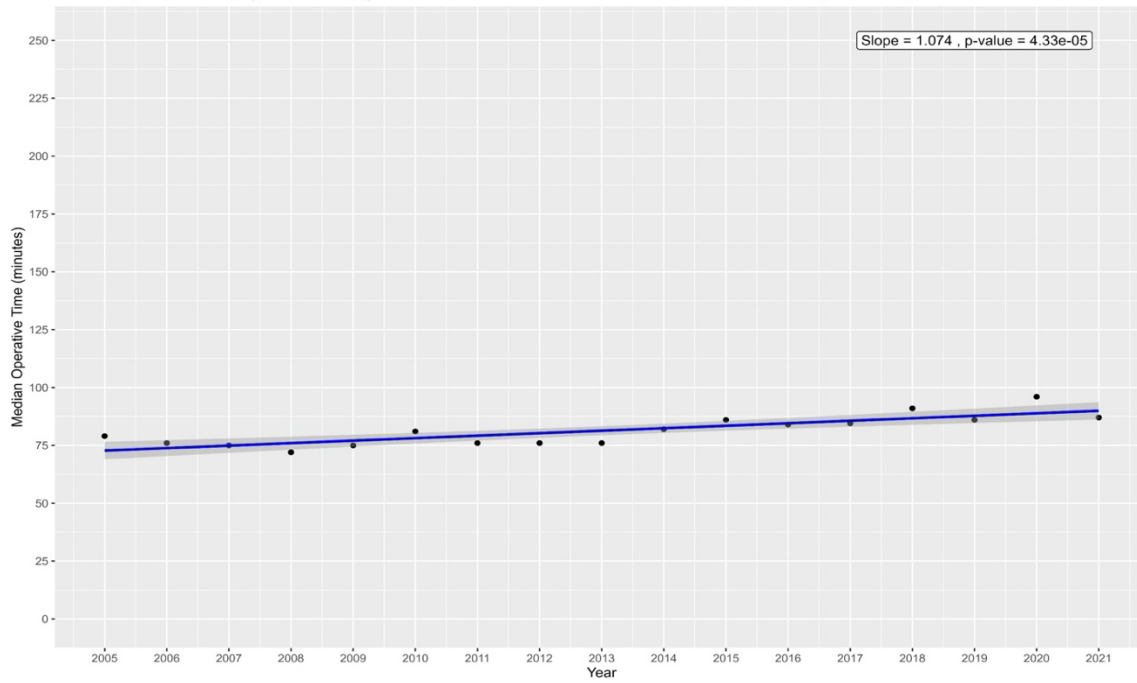

e) CPT 19342: Insertion of breast implant on a separate day from mastectomy

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Delayed, Unilateral, 19342

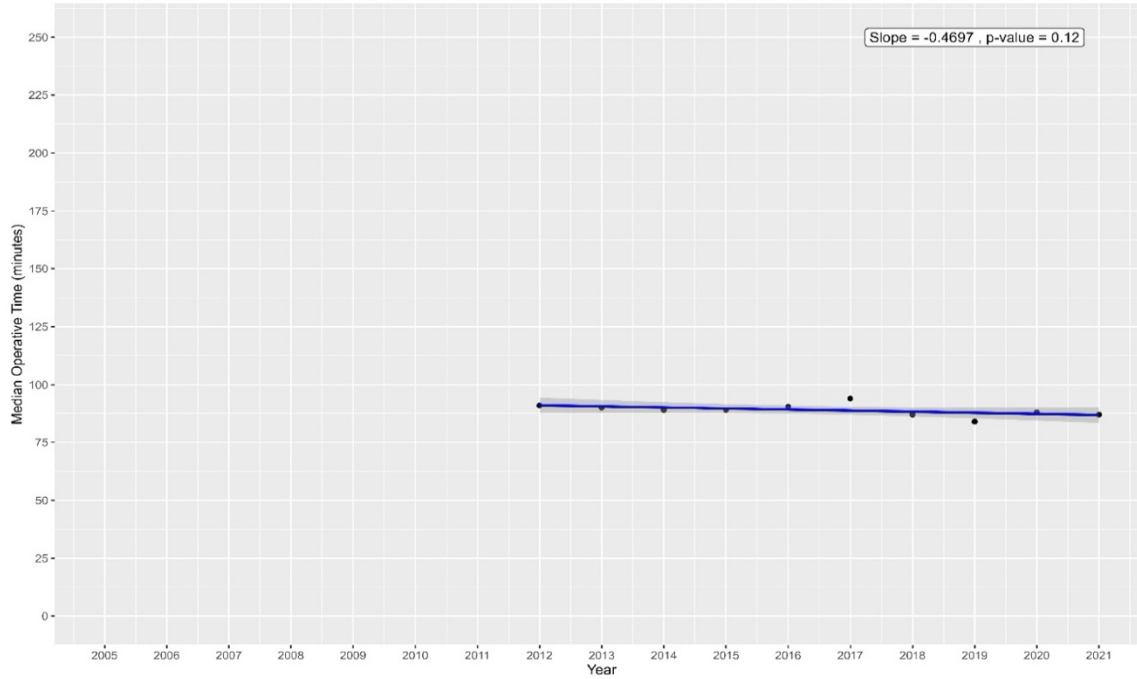

f) CPT 19357: Tissue expander placement in breast reconstruction, including subsequent expansion(s), immediate

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Immediate, Unilateral, without ADM 19357

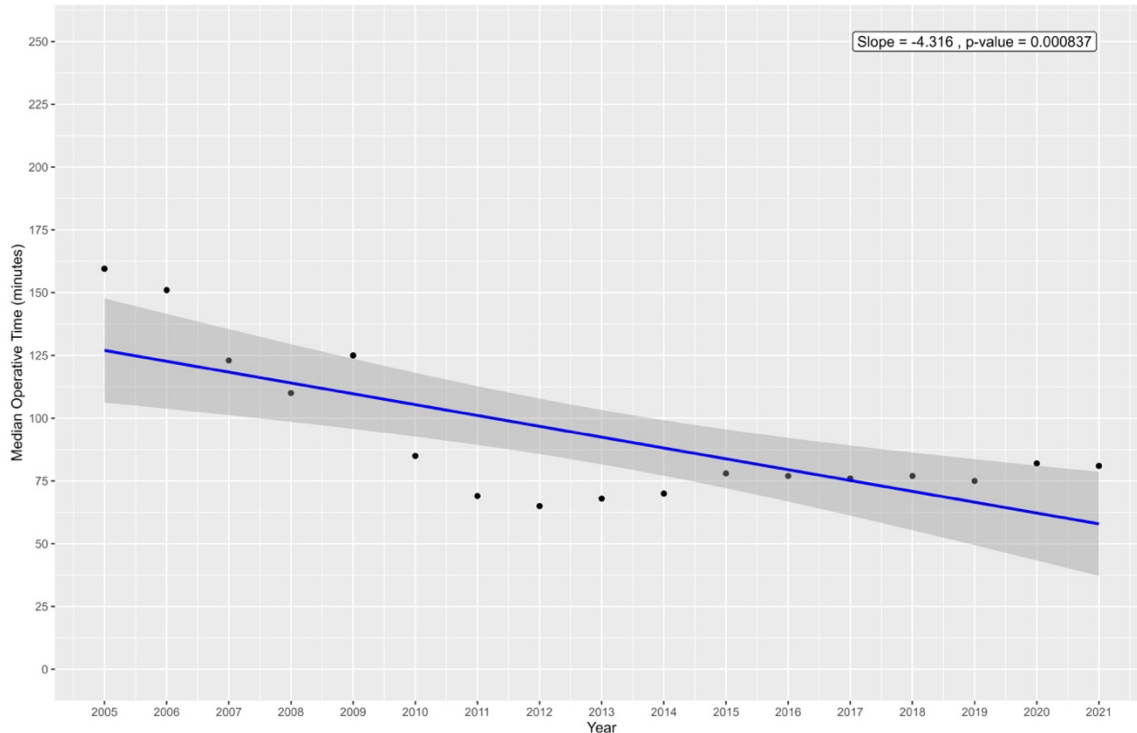

g) CPT 19357+15777: Tissue expander placement in breast reconstruction, including subsequent expansion(s), immediate, with acellular dermal matrix

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Immediate, Unilateral, with ADM 19357

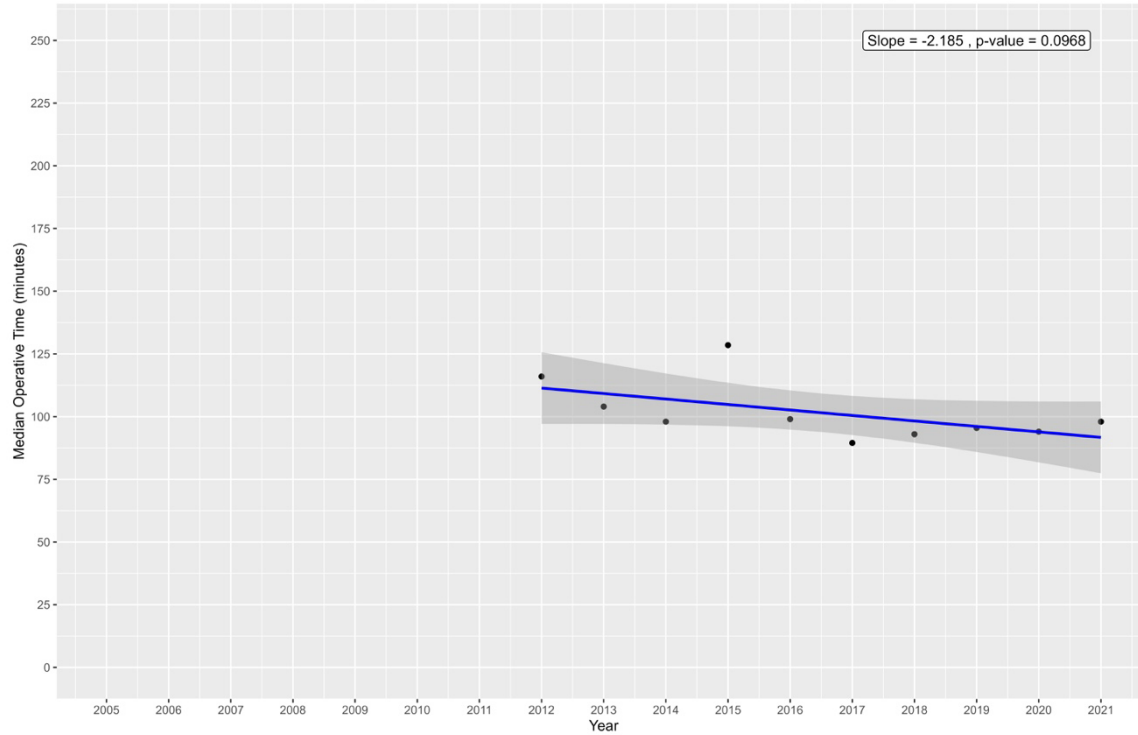

h) CPT 19357: Tissue expander placement in breast reconstruction, including subsequent expansion(s), delayed

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Delayed, Unilateral, without ADM 19357

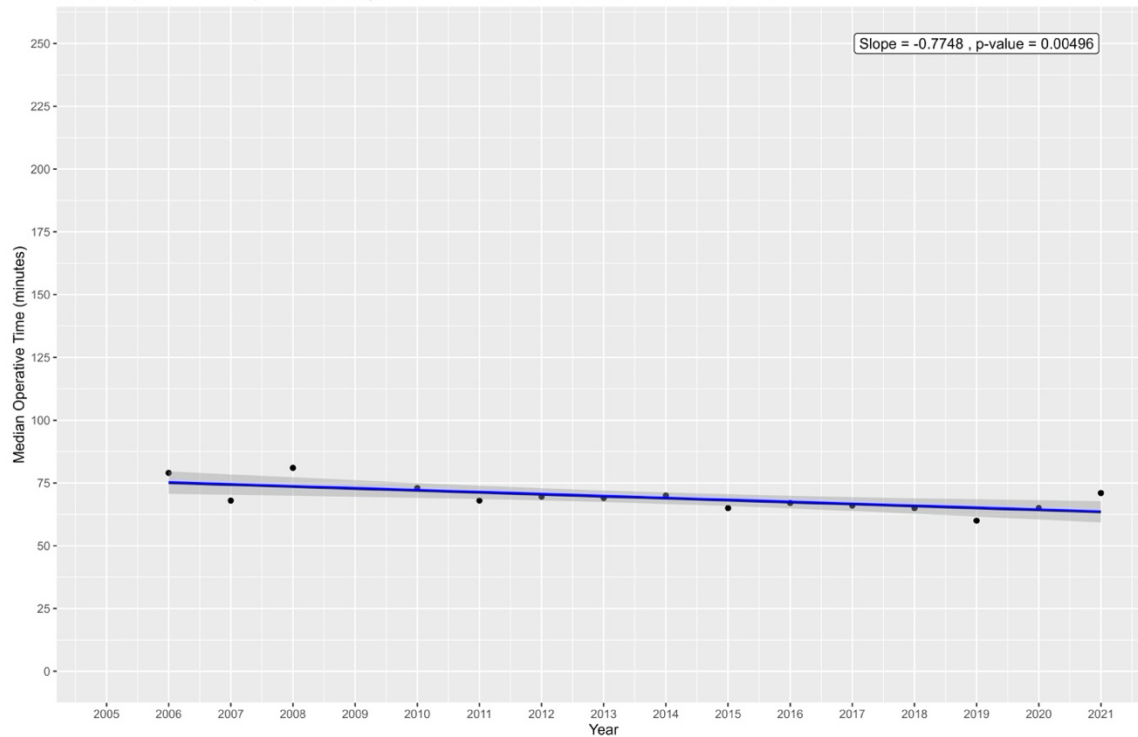

i) CPT 19357+15777: Tissue expander placement in breast reconstruction, including subsequent expansion(s), delayed, with ADM

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Delayed, Unilateral, with ADM 19357

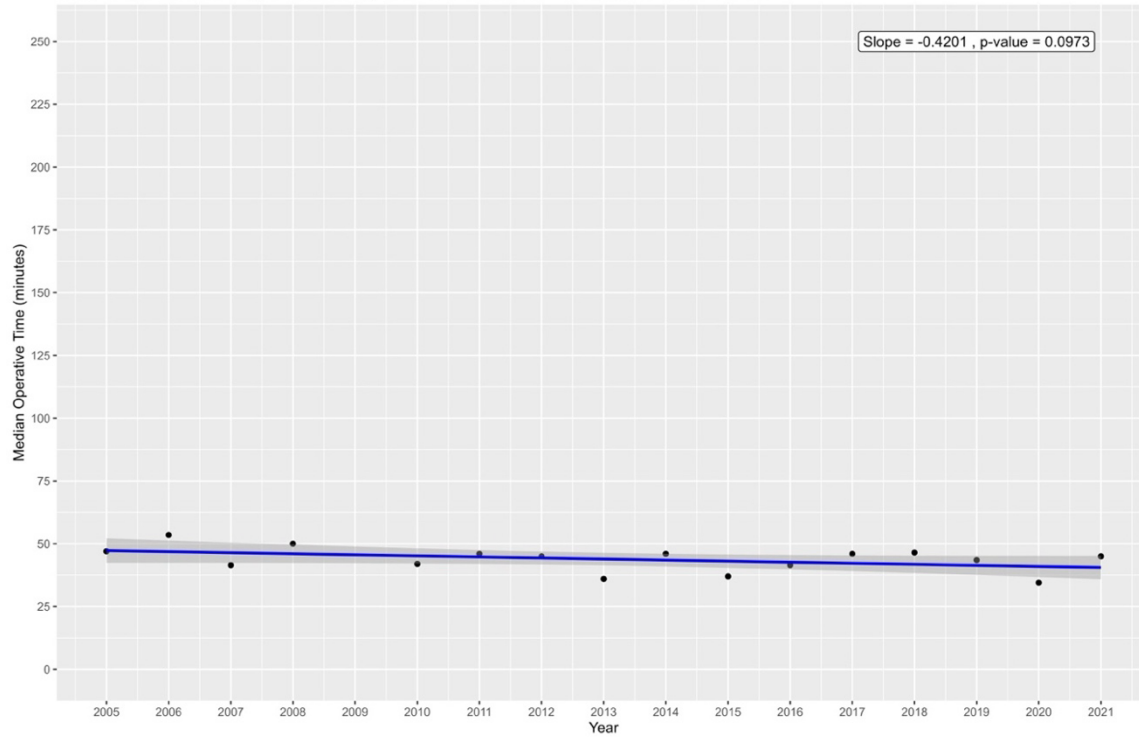

j) CPT 19325: Breast augmentation with implant

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for 19325

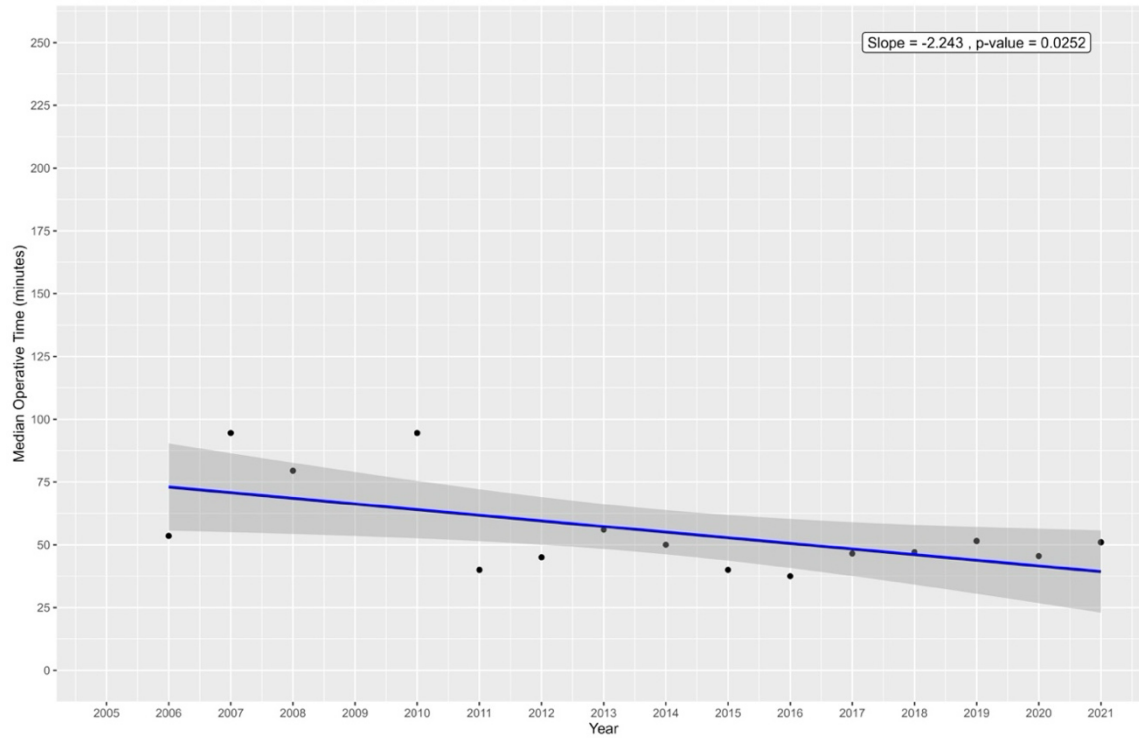

k) CPT 19328: Removal of intact breast implant

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for 19328

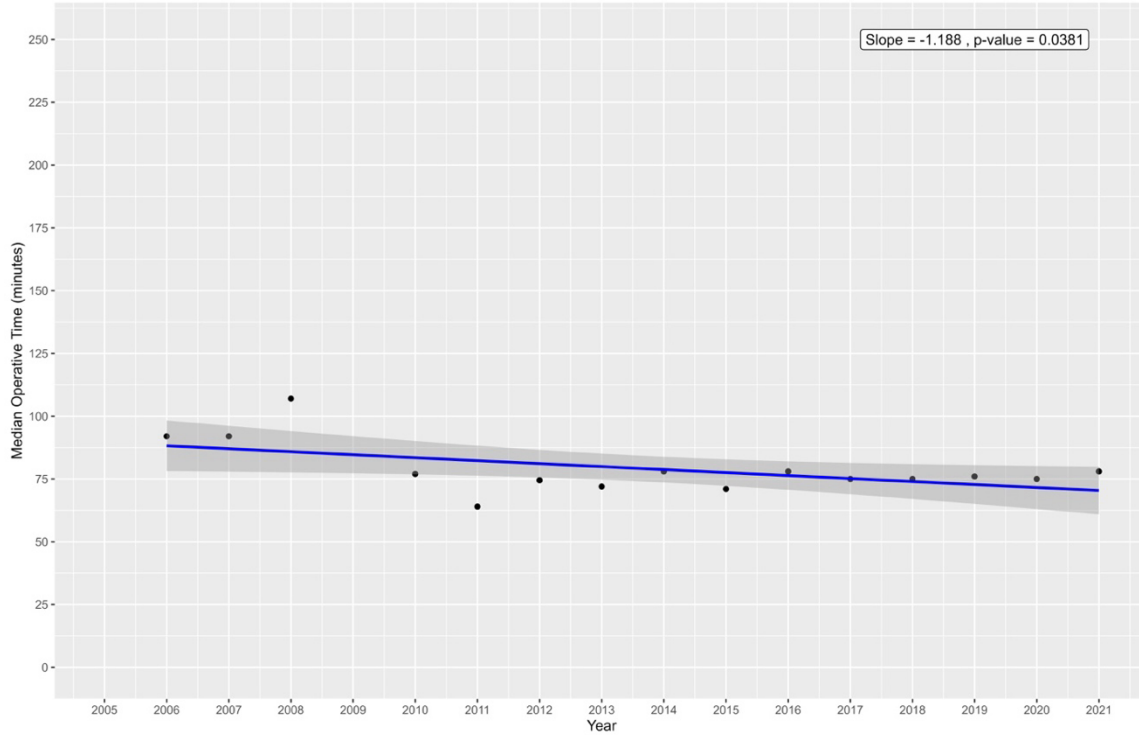

l) CPT 19330: Removal of ruptured breast implant, including implant contents

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for 19330

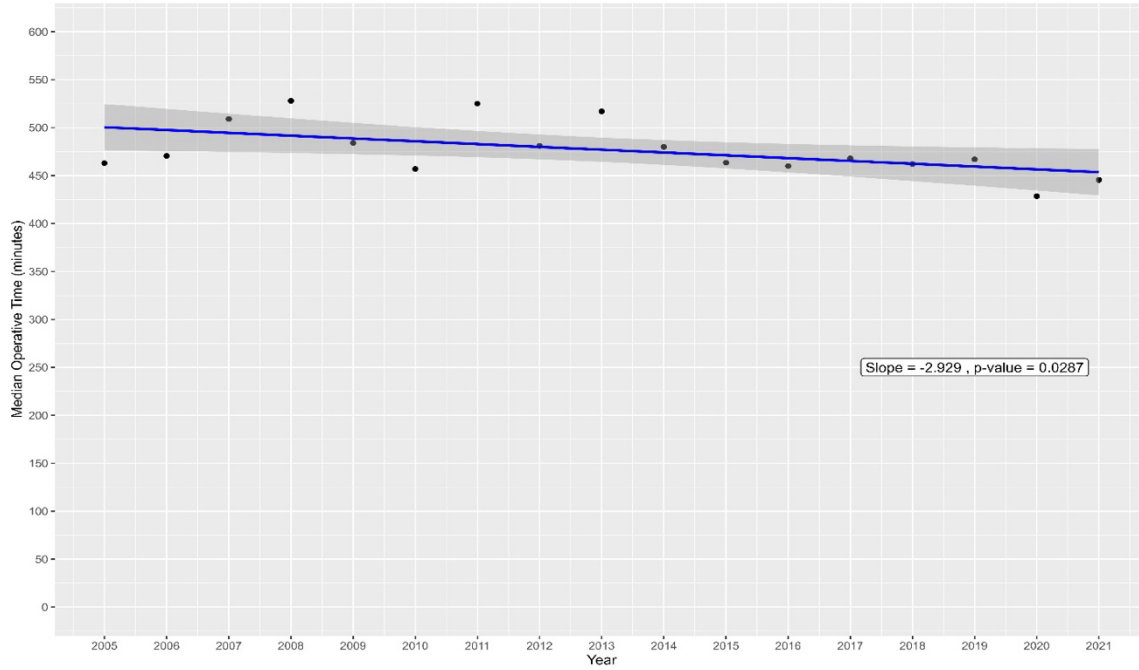

m) CPT 19830: Revision of reconstructed breast

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for 19380

n) CPT 19364: Breast reconstruction with free flap, immediate

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Immediate, Unilateral, 19364

o) CPT 19364: Breast reconstruction with free flap, delayed

Median Operative Time by Year with Regression Line and 95% Confidence Intervals for Delayed, Unilateral, 19364
