

### SDC1: Inter-rater Reliability of HNWS Scale at Week 0 and Week<4

Data Included	Weighted Kappa (95% CI)	Intra Class Correlation Coefficient (95% CI)	Number of Observations
Left Side Week 0	0.75 (0.58, 0.93)	0.84 (0.70, 0.92)	64
Left Side Week < 4	0.46 (0.27, 0.65)	0.58 (0.35, 0.78)	64
Right Side Week 0	0.73 (0.57, 0.90)	0.81 (0.67, 0.90)	64
Right Side Week < 4	0.62 (0.41, 0.83)	0.72 (0.53, 0.85)	64
Left and Right side ratings at Week 0	0.75 (0.62, 0.87)	0.83 (0.74, 0.89)	128
Left and Right side ratings at Week <4	0.54 (0.39, 0.68)	0.65 (0.50, 0.77)	128

1: Number of Observations= Number of subjects \* Number of Raters.

Sample size option 1: When the sample size is 67, a two-sided 95.0% confidence interval for an intraclass correlation based on 6 measurements/raters will extend about 0.1 from the observed intraclass correlation when the expected intraclass correlation is 0.6

Sample Size option 2: When the sample size is 48, a two-sided 95.0% confidence interval for an intraclass correlation based on 6 measurements/raters will extend about 0.1 from the observed intraclass correlation when the expected intraclass correlation is 0.7

Sample size option 3: When the sample size is 27, a two-sided 95.0% confidence interval for an intraclass correlation based on 6 measurements/raters will extend about 0.1 from the observed intraclass correlation when the expected intraclass correlation is 0.8

**SDC2: Correlation Between Left and Right Side Measurements for HNWS scale**

<b>Parameter</b>	<b>Value</b>
Pearson's Correlation Coefficient (Investigator,Week 0, Left Vs Right)	0.68 (P value <.0001 )
Spearman's Correlation Coefficient (Investigator,Week 0, Left Vs Right)	0.72 (P value <.0001 )
Pearson's Correlation Coefficient (Blinded Physician,Week 0, Left Vs Right)	0.77 (P value <.0001 )
Spearman's Correlation Coefficient (Blinded Physician,Week 0, Left Vs Right)	0.76 (P value <.0001 )
Pearson's Correlation Coefficient (Investigator,Week <4, Left Vs Right)	0.44 (P value 0.0120 )
Spearman's Correlation Coefficient (Investigator,Week <4, Left Vs Right)	0.39 (P value 0.0281 )
Pearson's Correlation Coefficient (Blinded Physician,Week <4, Left Vs Right)	0.62 (P value 0.0001 )
Spearman's Correlation Coefficient (Blinded Physician,Week <4, Left Vs Right)	0.57 (P value 0.0007 )
